Dear School Supplies Donor:

As you well know, at the beginning of every school year, there are many children in our community who go to school empty handed. This year, school begins on September 1st and we want to make sure that every child has their school supplies to begin their learning experience with confidence.

Our goal is **(\$2,000)** to collect for Darlington School District which will help approximately (300) kids. With new families moving into our area, as well as many families feeling the effects of recent lay-offs, there's an increase in need for donations. Your tax deductible \$50 Donation will provide you with a FREE Exam, X-rays & Report of Findings, with all proceeds going to the schools.

Can we count on you this year?

King Family Chiropractic is sponsoring their First Annual School Supplies Drive during the month of August we are asking you, as a business, individual, or church, to help the less fortunate kids in our schools with a donation. Your donation will purchase school supplies for needy kids and/or help purchase supplies for our teachers when the budget has been depleted.

You may donate monetarily or with specific supplies (see attached school supply list). Please send your donation in the envelope provided by August 31st with your check made to: *King Family Chiropractic - Special Funds Account*.

Together we can make sure that no child goes to school unprepared. Thanks in advance for your support!

Sincerely,

Dr. Jamey King, D.C.
Dr. Amanda Richardson, D.C.
