- Validation techniques for state IDs from Wisconsin and surrounding states

When you pass the final exam you will receive a certificate that you need to take to your local municipality for your operator or retail license.

The course provides servers knowledge of how to direct and control customer's unwanted behaviors. The goal of program is to develop, help and empower servers to execute professional customer service strategies that promote responsible drinking. They will also learn their legal responsibilities as an alcohol

server. Educated servers protect themselves and their establishments from lawsuits, criminal charges, and high administrative penalties.

Responsible alcohol service promotes responsible alcohol consumption. Together, we can help save lives, reduce liability, and promote professionalism throughout the alcohol service industry. Effective interventions can result in the reduction of human suffering and policing costs. Servers who prevent alcohol service to intoxicated people are responsible for reducing tragedies, such as the devastation caused by impaired car accidents and other alcohol related tragedies.
